

SIDDHESH THORAT

Full Stack Python Developer | Django | REST APIs | MySQL | PostgreSQL

Email: siddhesh.s.thorat14@gmail.com | Phone: +91 8830875465 | [LinkedIn](#) | Pune, Maharashtra, India

Professional Summary

Results-driven Full Stack Python Developer with 9+ months of hands-on internship experience building scalable web applications using Python, Django, and REST APIs. Proficient in backend development, relational database design (MySQL, PostgreSQL), API integration, and performance optimization. Experienced in delivering end-to-end features following SDLC best practices, Git workflows, and Agile development methodologies. Adept at writing clean, maintainable code and collaborating in cross-functional team environments.

Technical Skills

Programming Languages: Python, SQL, JavaScript

Frameworks & Backend: Django, Django REST Framework (DRF), FastAPI, REST APIs

Web Technologies: HTML5, CSS3, JavaScript, Bootstrap, Tailwind CSS

Databases: MySQL, PostgreSQL, Django ORM

Deployment & Cloud: Render, GitHub Pages

Developer Tools: Git, GitHub, Postman, VS Code, PyCharm, Google Colab

Testing & Practices: CRUD Operations, API Testing (Postman), SDLC, Agile, Code Review

Data Structures & Algorithms: Arrays, Linked Lists, Stack, Queue, Searching, Sorting

Soft Skills: Problem Solving, Analytical Thinking, Team Collaboration, Adaptability, Time Management

Languages: English, Marathi, Hindi

Professional Experience

Python Developer Intern

Jan 2025 – Oct 2025

Testyantra Software Solutions Pvt. Ltd., Pune

- Developed and maintained 5+ backend modules using Python and Django, improving application maintainability and adopting modular MVC architecture patterns.
- Designed and implemented 10+ RESTful APIs using Django REST Framework (DRF), enabling seamless frontend-backend communication and reducing data retrieval time by approximately 25%.
- Built reusable and scalable components using Django Models, Views, and Templates, reducing code redundancy by 30% and accelerating feature development.
- Implemented CRUD operations using Django ORM and optimized complex SQL queries for MySQL and PostgreSQL, improving database response time and overall application performance.

Projects

Job Application Tracker | [Live](#) | [GitHub](#)

- Built a full-stack Django web application to manage and track 500+ job applications, interview schedules, and deadlines in a centralized system. Implemented applicant details, resume uploads, and status tracking; designed responsive UI using HTML5, Tailwind CSS, Bootstrap, and JavaScript for cross-device compatibility.
- Secured backend with Django authentication, session management, and role-based access control for safe data handling.

Buy-N-Go (E-Commerce Web Application) | [GitHub](#)

- Developed a full-stack e-commerce platform using Django with product listing, user authentication, cart management, and order processing. Integrated third-party REST APIs for dynamic product data retrieval and designed normalized MySQL database schema with optimized CRUD operations.
- Implemented secure login, registration, and session-based authentication to ensure data security and user privacy.

NewDays – Children Learning Web Application

- Designed and developed an interactive front-end web application using HTML5, CSS3, and JavaScript targeting early childhood education.
- Created 10+ engaging UI components and animations to support early cognitive development and improve learning engagement.

Education

Bachelor of Engineering in Computer Engineering

Oct 2022 – Jun 2025

Bharat College of Engineering, Thane, Mumbai, Maharashtra

Diploma in Information Technology

Jun 2019 – Jun 2022

Govt. Polytechnic Awasari BK, Pune, Maharashtra

Achievements

- TCS iON NQT – IT (2026): Achieved a competitive score of 1981.80 / 3000 (66.06%), demonstrating strong problem-solving abilities with 69.74% in Foundation (Numerical, Verbal, Reasoning) and solid technical proficiency with 62.40% in Hands-On Python Programming, successfully qualifying for the TCS hiring process.
- Recognized for strong problem-solving skills and ability to independently learn and apply new technologies within short timelines.

Certifications

- Full Stack Python Development Internship Certificate – Python, Django, REST APIs (2025) | [View Certificate](#)

Core Strengths

- Strong analytical and problem-solving skills; writes clean, maintainable code; quick learner who thrives in Agile team environments and delivers quality solutions under deadlines.
